

## Idaho Workers' Compensation Program

Offered through Associated Insurance Services

### How Can We Control Our Workers' Compensation Costs?

It's a question we get often, but we have an excellent solution. Associated Loggers Exchange (ALE), an Idaho-owned insurance company established in 1979, for decades has provided workers' compensation solely to loggers, a specialty, higher risk industry. But in 2010, ALE expanded its appetite in to other industries like construction, manufacturers & many others, through our member-owned agency, Associated Insurance Services. We're thrilled to offer this unique program to other best in class Idaho businesses! It's time to take back control...

#### So what's all the hype about?

- ALE is the proven expert in risk management and claim service for higher risk industries
- Our rates are highly competitive and often the best when matched against other Idaho carriers
- Monthly payroll reports enable customers to pay as they go, improving cash flow
- Schedule credits available for qualifying clients\*
- Minimal upfront deposit required\*
- Return of Premiums available (similar to Dividends)
- Quick quote turnaround
- Simple renewal processing
- A- V (Excellent) A.M. Best Rating
